We help people with data to build dashboards from scratch using Google Data Studio.

Can we change this to the logos for Google Data Studio, Google Analytics, Google Sheets, Google Ads, Google Big Query, Microsoft Excel, MySQL, YouTube.

I'll don't know what to put here yet, let's leave it as the template image so long.

WHAT OUR HAPPY STUDENT SAY

Mauris auctor sit consequat sed aenean purus egestas porta vel fermentum, nec nisi at eget non, nisi tincidunt tempus, etiam eget blandit tortor pulvinar est faucibus tristique blandit volutpat neque sit fusce.

Elena Miles

"A little about your next teacher"

"I love helping people power up in data. Data is such an important tool and it can sometimes be daunting to get started. That's why I started this course: I want you to have a fun and friendly way to get to know your data better and learn from your data for the first time."

Jess

“THE COURSE”

● FEATURED COURSE

Getting Started With Python 3 for Beginner

Nibh enim nisi amet et nunc varius facilisis nulla non urna pulvinar felis, faucibus id placerat.

- ✓ Fundamental
- ✓ Conditional branching
- ✓ Input and output
- ✓ 8+ more lessons

Start Course

“Start learning about Google Data Studio dashboards”

“This course will take you from early planning stages through building a dashboard and then to the data lifecycle and how to share your dashboard ”

Great

“Your first process
Bring in your own data

Design best practises
Build your dashboard”

FRONT END

HTML 5 Web Component Fundamentals

👤 Beginner ⌚ 2h 24m

FRONT END

Mastering CSS 3 Flexbox With Real World Projects

👤 Beginner ⌚ 3h 18m

FRONT END

Full Stack Web Development with React Hooks and Redux

👤 Intermediate ⌚ 4h 36m

Can you please make 2 more rows of these? I have 8 modules for the course. Can it be 2 rows of 3 and then a row of 2 boxes?
All modules are beginner level.

FRONT END can be:

1. Planning
2. Planning
3. Preparation
4. Preparation
5. Preparation
6. Build
7. Guard
8. Guard

Module title can be:

1. Define goals
2. Draft dashboard
3. Where is my data?
4. Connecting your data
5. More complex modelling
6. Build your dashboard
7. Share it
8. Lifecycle plan
